What is April Fools Day and how did it begin? Well, that is a very good question. The origin of this holiday is rather uncertain. During that time in history there was no television and no radio so word spread slowly. There were also those who chose to simply ignore the change and those who merely forgot. These people were considered fools and invitations to non-existent parties and other practical jokes were played on them. All Fools Day is practiced in many parts of the world with practical jokes and sending people on a fools errand.

Another thought is that the origin began with the celebrations of the Spring Equinox. While some believe it has to do the a Roman festival known as Hilaria, the end of the Celtic new year.

Last March, my mother told my father and me that my grandfather would come in April. We were very happy because my grandfather was an interesting old man and he had not visited us since he went to Hong Kong.

On April 1 my father and I bought a lot of food from the supermarket and bought a big bunch of flowers home. Then we did some cleaning at home. At night when we were waiting for my grandfather, the bell rang and in came my mother. She smiled to us and said April fools!
